Betty Mutua from Opportunity Kenya shares her story with the YAO DC chapter.

YAO inspires, educates, and involves younger generations in the power of microfinance and the mission of Opportunity International. Through volunteer-led, regionally based chapters, YAO is raising awareness and funds to build a full-service bank for impoverished Tanzanians.

“Traveling with YAO to Tanzania, I saw impoverished people trying to build businesses and provide for their families, but lacking access to financial services that are needed by all entrepreneurs.”
